

## Technical Data Sheet

### 9182 Test Lead Holder

This unique test lead holder allows you to store your leads in your tool box or on the test bench. Leads wrap around holder and connectors plug into holes on either side. Several holes are available for different lead lengths and connector types.

- Use with our 8000 series & 9000 series test leads.
- Overall size 3" x 5 1/2"

Use with our Test Leads that are 48" and longer. (Will not work with our 24" & 36" Test leads Or 8150 & 8151 Micro Tip probes)

The large holes fit shrouded banana connectors and small holes are for standard unshrouded 4mm banana plugs.
